ARCA

Software Architectures & Design Calculi
Research team @ HASLab, Univ. Minho

About Arca

Arca – Software Architecture & Design Calculi – is a research team lead by prof. Luís Barbosa and prof. José Nuno Oliveira. It investigates formal approaches based on calculi of programs, processes, algorithms, etc. and on software quality, focusing on components, architectures, coordination, and variability.

This team is part of the HASLab group, which is a software laboratory the university of Minho associated to INESC TEC.
